PROFILE SUMMARY

Dedicated Frontend Developer with more than two years of experience, including multiple internships, focused on designing and developing responsive, user-centered web and mobile applications. Adept at crafting scalable, high-quality interfaces that emphasize accessibility, performance, and smooth user experiences. Experienced in collaborating within Agile teams to ensure that technical solutions align with business objectives, integrating APIs to boost functionality, and staying updated with the latest trends in frontend and mobile development. Passionate about providing innovative digital solutions that enhance user engagement and deliver measurable results.

SKILLS

- HTML | CSS | JavaScript | Typescript | React | React Native | Next.js | Tailwind CSS | Bootstrap
- Responsive & Mobile-First Design | Jest | Cypress | API Integration | Web Performance & SEO
- State management | Web Accessibility | Node.js
- Languages: English (Fluent)

Tools

- Git | GitHub | Shopify | Figma | Expo | Deployment | GitHub Actions

Soft Skill

- Problem-Solving, Attention to Detail, Adaptability, Collaboration, Communication, Time Management

Design Knowledge

- UI/UX Principles (Usability, Aesthetics)

PROJECTS

StoryTrennd | React, Node.js, MongoDB

- Developed a full-stack storytelling platform enabling users to create, share, and illustrate stories with AI-generated visuals, enhancing user engagement through interactive features like comment replies and notifications.

TarnKapital | React, Node.js, MongoDB

- Designed a full-stack investment platform with an admin dashboard for managing users and transactions, incorporating JWT authentication and responsive UI to empower clients with secure financial tools.

Tokner | React

- A dynamic and engaging landing page for a fictional cryptocurrency token. This project highlights my ability to create a modern and interactive user experience with a clean design, showcasing key information about the token, its roadmap, and its features in a clear and compelling way.

PCL Clone | React

- A re-creation of the (PCL) website, showcasing a clean, responsive, and modern front-end design. This project highlights my ability to translate complex layouts into pixel-perfect, interactive web pages, with a focus on user experience and accessibility.

CERTIFICATE

- Coding, UI/UX Design & Web Design | Flip To Tech | May 2023
- Full-Stack Development | ITSkills Center | July 2025
